DRY BILL HAS PASSED IN THE STATE SENATE

Measure Soon Goes to Governor;
Will Aid in Enforcing
Liquor Laws

(By J. Sherman Porter)
Frankfort, Ky., March 8.—With but few changes and none of these of vital importance to the effectiveness of the measure the liquor law enforcement bill last week passed the Senate and on concurrence by the House in the amendments goes to the Governor for his signature.

As it passed the Senate the drastic fine and jail sentence for first and second offenses are retained, as well as the penitentiary sentence for persistent violators, the only thing, in the opinion of the officers of the Statewide Prohibition Federation, which has backed the legislation from the start, that will bring about any real enforcement of the law.

With the enactment of another measure to prevent moonshining and providing a penalty that will be discouraging to those who have persisted in "turnin'" their own corn into red licker, it is likely that, for the first time in her history, Kentucky will be rid within the next few months of the curse of whisky.

James H. Combs, federal prohibition officer for Kentucky, and his staff, continue to catch law violators in the cities, where officials are in sympathy with this portion of the criminal element, and the need of laws providing for the removal of such officials is emphasized by the success of Mr. Combs and his men in ferreting out such cases.

WOMAN RESCUED BY DOG

Hopkinsville, Ky., March 9.—To the sagacity of an ordinary cur dog on the farm of J. H. Pyle, of North Christian, Mrs. Nancy Smith, 80, owes her life.

Enroute from her home to Mr. Pyle's for a neighborly visit, Mrs. Smith stumbled and fell while passing through a woodland and was unable to regain her feet. She lay there for three days and nights and part of the fourth day. The temperature was anything but pleasant and one day the rain fell almost without cessation. On the fourth day the dog attracted Mrs. Pyle's attention by his unusual actions and finally Mr. Pyle decided to follow him.

The dog led him straight to Mrs. Smith, whom he had discovered and evidently sensed her predicament. The aged woman was taken home, put to bed and given every attention. She is threatened with pneumonia, but it is believed she has a good chance to recover despite the terrible exposure she underwent.

Nearby where she lay there was a grapevine, which is considerably worn by Mrs. Smith's hands as she grasped it trying to pull to her feet.

HEALTH

The Red Cross Chapter of Ohio County has endeavored during the past months to make a partial community study of living conditions among the people of the county. This has been done with the idea of finding out the greatest need of the communities so the Red Cross Chapter may intelligently decide upon some plan for bettering the conditions. The study was made in 12 of the thirty-two voting precincts of the county some mining counties and some agricultural. The subjects covered were health, sanitation, education, recreation, unstable families and religion. This study covers the past twelve months.

A study of health conditions in the 12 precincts shows that there are quite a number of crippled children. Of this there are eighteen for whom nothing is being done to care them. Should the Red Cross Chapter of Ohio County decide to enlarge its work along health lines, the secretary could make arrangements with the Children's Free Hospital of Louisville to place their children under fourteen years of age for free treatment. Some of the best surgeons and doctors of Louisville treat the children who are placed here.

In only two precincts of the county is there medical inspection of school children and no dental inspection.

There is no systematic instruction given mothers in the care of babies and in the proper feeding and clothing of children. The only care given farmers wives during confinement is by physicians or midwives trained nursing service being almost entirely lacking. There is almost no prenatal instruction given to mothers. As a result of this there is a large percentage of deaths of infants from premature birth and other preventable causes.

In one section of Ohio County, the study indicates that there are a great many cases of trachoma or granulated eyelids. This is serious as the disease if not treated will finally make the sufferer blind. It is not generally known to the public that there is at Greenville, Ky., a hospital for trachoma which was established and is maintained by the United States government. There is a trachoma specialist and two trained nurses in charge and any patient anywhere may go there and receive free treatment, room and board. Therefore, the only expense would be train fare.

The facts stated above indicate that there is a great need for a welfare nurse in Ohio County. A Red Cross nurse placed in the county would inspect school children, teach mothers in the care of children, assist the physicians with the most difficult operative and confinement cases, visit patients suffering from tuberculosis and other contagious diseases, and be of assistance to the public in innumerable ways.

HIS PRAYERS ANSWERED

(Horse Branch Special)

Mr. W. M. Griffith, of Pewee Valley, passed through here recently enroute to his home after a visit to his brother, Isaac Griffith, near Deanfield. Mr. Griffith is 82 years old, very active for a man of his age, a Confederate soldier of Co. A, 1st Ky. Cavalry, Capt. Taylor's command, and served through the entire war of the rebellion.

Twenty six years ago, Mr. Griffith was at the point of death, given up by his doctor to die. He says he prayed to God to spare his life till morning, because he didn't want to die in the condition he was in at that time; he wanted to die sober, so God spared his life and he reformed his way, became a member of the Baptist church and has lived a Christian life since.

After recovering, he says that he began praying that he might live to see the day when the manufacture and sale of all intoxicants were prohibited in Kentucky, and now this prayer has been answered also. But like most mortals, though he realizes his time is up, he is not yet in any hurry to go.

He is in splendid health and bids fair to live several years yet. Mr. Griffith is now an inmate of the Confederate Soldier's Home at Pewee Valley.

BIG DEMOCRATIC GET-TOGETHER RALLY

Will Be Held in Louisville March 18th; Banquet at Seelbach Hotel.

Democrats will gather in Louisville from all parts of the State Thursday, March 18, the day following adjournment of the Kentucky Legislature, for a get-together rally and banquet which will be given at the Seelbach Hotel.

Party leaders, including members of the House and Senate, held an informal meeting at the Seelbach Saturday night and named a subcommittee composed of Judge Charles A. Hardin, chairman; Col. F. H. Callahan, Col. Harry Sommers, Elwood Hamilton and W. A. Gaffig, to arrange for the meeting.

Invitations will be extended to Democratic members of the House and Senate, Democratic judges of the Kentucky Court of Appeals, Democratic editors, Democratic County Chairman and Senators and members of the House and all Democratic county officials, together with 250 prominent Democrats from all parts of the state, to attend the rally and banquet.

The committee announced that Homer S. Cummings, chairman of the Democratic National Committee, had accepted an invitation to attend the banquet and will be on the program for the principal address. Senator Carter Glass, of Virginia, has been invited but the committee has been unable to get an acceptance as yet altho they expect he will attend.

Editors of the state will be guests at a luncheon given in their honor at the Seelbach at 1 o'clock on the day of the rally, and later in the afternoon members of the Democratic State Central and Executive Committee will hold a joint meeting to fix the time and place for holding the state convention.

THE DAY'S WORK

(Edgar A. Guest)

Is anybody happier because you passed his way?
Does anyone remember that you spoke to him today?
This day is almost over and its tolling time is through;
Is there anyone to utter now a kindly word of you?

Did you give a cheerful greeting to the friend who came along,
Or a churlish sort of "howdy" and then vanish in the throng?
Were you selfish, pure and simple, as you rushed along the way,
Or is someone mighty grateful for a deed you did today?

Can you say tonight in parting with the day that's slipping fast,
That you helped a single brother of the many that you passed
Is a single heart rejoicing over what you did or said?
Does a man whose hopes were fading now with courage look ahead?

Did you waste the day or lose it, was it well or poorly spent?
Did you leave a trail of kindness or a scarce of discontent?
As you close your eyes in slumber do you think that God would say
You have earned one more to-morrow by the work you did to-day?—Ex.

FIRST CENSUS REPORTS

Following announcement that Cincinnati's population is 401,158, an increase of 37,567, or 10.3 per cent., and that of Washington 437,414 a gain of 106,345, or 32.1 per cent., the United States Census Bureau has made it known that as soon as the statistics gathered by the enumerators and special agents are assembled and verified, the data will be made public, the population of the larger cities of the country being given out first. Then will follow the population of the various counties, which number more than 2,900, together with their divisions of townships, precincts and towns, with the population of each incorporated city, town or village. After the counties have been completed the population of the various States will be announced and then the count of the entire United States.

3,384,766 GALLONS RUM EXPORTED IN JANUARY

New York, March 8.—Demon Rum, John Barleycorn and other alcoholic concoctions in sufficient quantities to make more than 200,000,000 average "drinks" were exported from New York during last January—the greater part prior to the 17th when the Eighteenth Amendment became effective.

This is shown by the export statistics of the port of New York made public today in detailed statements indicating that 3,384,766 gallons of spirits were cleared at the United States Customs House with a stated value of \$4,694,858. During January, 1919, there were exported 14,006 gallons of liquors valued at \$52,417.

In addition to spirits there were exported during January this year 309,012 gallons of malt and 97,932 gallons of wines, while the records for January last year show but 32,006 gallons of wine and 236,002 gallons of malt.

RESERVATION ON MONROE DOCTRINE IS ADOPTED

Beckham and Fourteen Other Democrats Vote With Republicans

Washington, March 7.—Two more Republican reservations to the peace treaty, affecting the bitterly debated Monroe Doctrine and a decision over domestic questions under the league were re-adopted in the senate without change, by greater majorities than last November.

The Monroe Doctrine reservation said to be as objectionable to President Wilson as that relating to Article X, passed 58 to 22. It got the support of fifteen Democrats, seven more than supported it last November.

The other reservation, which asserts full jurisdiction for the United States over purely domestic questions, was adopted 56 to 25, with fourteen Democrats swinging over to the Republicans a gain of three Democrats since November.

Little debate attended the senate's action, all elements apparently conceding the roll calls merely formalities to let everyone go on record once more before the final deadlock, which is now generally expected to put the treaty over into the political campaign.

On the Monroe Doctrine reservation, Senator Beckham, Democrat, of Kentucky, who voted against the adoption in November, swung over to the Republicans today.

Before the final roll call there was a long wrangle over the question whether commerce should be included among the subjects specifically enumerated in the reservation as excluded from the league's jurisdiction. Declaring inclusion of this word as it stands in the Republican draft would mean a declaration that foreign as well as domestic commerce could not be dealt with but the league, Senator Fletcher, Democrat, Florida, moved to strike it out but he was voted down 44 to 34.

A warning that the Fletcher amendment was a "part of a plan to defeat the reservation entirely" was given by Senator Lenroot, Republican, Wisconsin, who said Senator Hitchcock, hoped after securing such a modification, to get a majority "with the help of the irreconcilables on this side of the aisle against any reservation at all."

WILSON OUT FOR FIRST TIME SINCE LAST OCTOBER

Washington, March 7.—President Wilson went for a motor ride Tuesday, leaving the Whitehouse grounds for the first time since he was ordered to bed last October by Rear Admiral Grayson, his physician, "a very sick man."

The President was accompanied by Mrs. Wilson, Dr. Grayson and Secret Service men and took a spin around the "speedway" along the Potomac. A closed car was used and the party left through the south west gates.

Photographers who had waited several weeks for the President's reappearance in public were prohibited by the police from taking photographs.

Almost ideal weather prevailed for the President's ride, the day being as balmy as one in late spring with only a gentle wind stirring. The car was kept closed throughout the trip however. The President sat in the rear seat with Mrs. Wilson and kept his cap in his hand most of the time.

Waves to Borah

From the "speedway" the President drove back into the city and down Pennsylvania Avenue around the Capitol and thence to the White House. He was out a little more than an hour and appeared to have enjoyed his outing.

Going through the Capitol grounds the President passed Senator Borah of Idaho and recognition was simultaneous, both waving their hands and smiling. Throughout the trip, Dr. Grayson said, the President was delighted and remarked that he felt like he had been away from Washington for a long time.

Passing the vicinity of a market house, the President, who delights always in reading signs when he is motoring, saw a large sign quoting pork at 35 cents a pound. Although he has given much serious consideration to the high cost of living, the President remarked to Mrs. Wilson, "That brings it home to you when you see a big sign like that."

During the drive the President passed many groups of people who recognized him and he smiled his acknowledgement of their greeting. Quite often women who recognized him waved to him.

go out today was made by Admiral Grayson early this morning. Yesterday the President, anticipating a good day today, suggested that he would like to go riding and when he renewed the suggestion today Dr. Grayson acquiesced. The President's closed car and a Secret Service machine drew up to the south entrance of the White House at about 11 o'clock. A few moments later the President, accompanied by Mrs. Wilson and Dr. Grayson, came out from under the callonade. The President walked to the car with the aid of his cane, Dr. Grayson was at his side and held lightly to the President's arm. The President was assisted in the car by Dr. Grayson and Mrs. Wilson. He wore his old gray sweater under a medium-weight overcoat.

After passing the Capitol the President returned to the White House via the Union Station and Massachusetts Avenue. Dr. Grayson said that the President had been much benefited by his trip and that an examination of his blood pressure on his return showed it to be quite normal.

The President, Dr. Grayson said, probably will not go out driving every day for a time. Today's trip was in the nature of a diversion and future outings will be regulated by the weather. There will be no set schedule.

WHITE PLYMOUTH ROCKS

Millions of dollars have poured into the pockets of the farmers in California because they have standardized their products. Oranges, lemons, English walnuts and raisins, grown in California, are bought everywhere in the United States, because the purchaser knows that he is buying standardized goods. The farmer in Kentucky may not have these fruits and nuts; but he, his wife and his neighbors can easily push the standardization of chickens.

Suppose Ohio county has 12,000 fowls of no breeding or of a dozen different pure bred strains. Now suppose these could all be changed in one year to White Plymouth Rocks what would be the result? Ohio county would soon be well known as a center for pure bred White Rocks. The men who buy thousands of pure bred eggs from which to produce baby chicks, would naturally buy eggs at fancy figures in Ohio county. Even the produce dealers would be attracted to Ohio county because they are always anxious to buy eggs of uniform color and dressed poultry which is standard in size, color and general appearance.

Another great advantage is that when a county standardizes its poultry, the stock in that county remains unmixed as there are no roosters of other breeds to wander over from neighboring farms. Of course everyone in this 20th century knows that pure bred poultry will look better and be more profitable than mixed stock. Besides the offspring of pure breeds can be depended upon to be as good or even better than their parents.

Ohio county should choose White Plymouth Rocks as its standard fowl, because:

1. They are the most popular fowl in that section.
2. They are suited to the climate.
3. They are dual-purpose fowls, which are best for farms.
4. They lay as many eggs in winter as other breeds.
5. They lay as many eggs per year as any other dual-purpose breed.
6. They have won at one or more egg laying contests.
7. They lay good sized eggs which ship better than thinner shelled white eggs.
8. They are unsurpassed as a table fowl.
9. They bring more per pound than the lighter breeds.
10. They are preferred by milk-fattening establishments.
11. They are yellow-skinned, a great advantage in culling for egg production.
12. They mature rapidly.
13. They fatten quickly.
14. They stand confinement well.
15. They are fine rangers.
16. They are the best sitters and mothers.
17. They are easily "broken-up" when broody.
18. Their chicks are healthy and easily raised.
19. Their small combs do not freeze easily.
20. There are few "color culls."

Think it over, and look around for yourself, it is an even bet that some one of your neighbors is raising White Rocks, and making good at it.

YOU HAVE ALL BEEN ASKING WHAT IS THE FARM BUREAU DOING?

Here you are, THE HARTFORD HERALD would like to print all that Farm Bureau is doing, but they think you want some local news once in awhile so—

Those who are familiar with the plans and purpose of the American Farm Bureau Federation, which was recently organized, are expecting much good to accrue to the farmers of the country as the result of having a strong national body whose business it will be to safeguard the interests of those who are engaged in the business of farming. Already the organization is making itself felt and as other states fall in line the influence will be greatly strengthened. Recently James R. Howard, president of the National Federation and J. G. Brown, president of the Indiana Farm Bureau Federation, visited Washington and took up the matter of car shortage with the officials of the United States Railroad Administration. Heretofore such matters have been presented by the various local organizations over the country, but the farmers have never before had the great "push" behind them they have today. So far 21 states have ratified the constitution

of the national organization.

Under the provisions of the constitution as adopted at the organization meeting last November each state that has ratified the constitution of the national organization is entitled to one regular voting delegate and an additional delegate for each 20,000 members or major portion thereof, affiliated with the state federation of county farm bureaus.

The national organization is now a going concern. At the time of the organization meeting last November only one or two states were in a position for ratification measures. Others either had membership campaigns under way or in contemplation to start at an early date and as ratification included the election of directors the latter could not very well be done until the campaigns were concluded so the states might ascertain their proper quota of directors according to state-wide membership.

The approaching meeting in Chicago, March 3, will be an important one. Numerous matters of business will come under consideration, but the prime work of the meeting will be to work out a definite constructive program of activities for the ensuing year.

DON'T GET SORE AT THE RUNTS? GIVE 'EM A CHANCE AND KEEP THEM FREE FROM LICE:

THOSE VALUABLE RUNTS

Put them in a separate pen, else crowding of the larger animals will keep these little fellows in the "runt" class.

Provide warm, dry sleeping quarters for them, even better than those supplied the general herd. Admit all the sunshine you can.

Have a clean, south-side lot in which these little fellows may take ample exercise. If a good bluegrass or alfalfa lot is available, so much the better.

If skim-milk is at hand, supply it to them liberally—nothing in pigdom so good for them. If no milk is available, give them all the first-class swill and refuse from the table, including the richest dishwater.

We feed crushed oats and wheat to the runts—one part wheat to two parts oats. Let the mixture soak in water over night; stir briskly in the morning at feedtime. Let the materials for evening feeding soak from morning till evening. Cracked corn may be substituted for one of these grains. Soaked whole corn (soaked 24 hours in water) makes a fine feed for the runts, switching it in as the third feed, between the soaked meals. A little corn now and then is good for the pigs. In all cases, feed only what they will eat up clean.—M. Coverdell.

PROPER FEED AND CARE FOR CHICKS ESSENTIAL

(By O. M. Allen)

Thousands of chicks die every year through the use of poorly constructed brooders and the mismanagement of their caretakers. In rearing baby chicks a good brooder is really more essential than a good incubator, for, while the saying that a chick well hatched is half raised is undoubtedly true, a poor brooder is a death trap not to be considered by the wise poultryman. While we have had good success with several styles of brooders, for the past ten years we still like some of the oil burner brooders. Early in the season we place these inside of colony houses where there is plenty of light room and fresh air.

When the chicks begin hatching we heat the brooder about 86 degrees, and when they are through hatching transfer them from the incubator to the brooder, being careful that they are not chilled in the transfer, if the weather is cold. The floor of the brooder is covered with newspapers and on top of this about two inches of clover chaff is scattered. On this chaff about two handfuls of chick food is scattered. In choosing chick feed, see that it contains a variety of grains, as supposedly on account of high prices on some grains, some of this feed is nothing more than a mixture of white and yellow cracked corn for which the consumer is charged 6 cents per pound when corn was selling for \$1.35 per bushel.

Before placing the chicks in the brooder each little bill is dipped twice into luke warm water. They are watered at each feeding time. We never give ice cold water as it is very likely to produce cramps, and if water is kept before the

brooder chicks all the time they will often drink themselves to death.

The first feed consists of an egg which has been hard boiled until it is crumbly or rolled oats or the two together make a very nice feed.

In preparing the egg we chop shell and all up very fine and are careful to see that each little chick gets a taste. We alternate the chopped egg with oat meal or rolled oats and give at least one feed daily of bread and milk until the chicks are two weeks old. The bread is soaked in sweet milk and squeezed dry before feeding. A good plan is to chop onions and dandelion tops and mix with the egg as they are both good liver tonics. The first week we feed four times daily and as they grow older we feed less chick feed and more cracked corn and wheat as these grains are both good food for the growing chick. In the fall we sometimes feed whole oat as it excels in bone and muscle production, and is the most perfectly balanced of all foods. Where one has no milk animal food should be supplied in some form.

COST OF LICE ON HOGS PROVED IN TESTS

Lice on hogs are extremely expensive. The fact was proved in experiments recently concluded by the Bureau of Animal Industry of the United States Department of Agriculture. It was shown that lousy hogs not only consume more food and make less meat, but that they are uneasy or restless, a condition that doubtless lessens the pork-producing abilities of the animals. When not eating, the lice-ridden swine spent most of their time rubbing themselves or running around. If strangers came near they were noticeably excited. This did not hold true of the hogs free from lice.

Three experiments, each extending three months or more and with from 20 to 30 hogs as subjects, were conducted. In one experiment it cost exactly \$1 a hundred pounds of pork more to feed the hogs with lice than it did to feed the clean animals. In another, it cost \$1.50 more, and in the third, \$2.94 more. The specialists who conducted the experiments reached the conclusion that the main reason why hogs with lice consume more protein feed is due to the fact that the lice suck the blood from the animals, and the latter must use more feed to replace their losses.

But the lice-ridden hogs cannot make up for the blood sucked by their parasites. For instance, at the beginning of one experiment 15 hogs with lice weighed a total of 1,167 pounds, and 15 hogs without lice weighed 1,025 pounds. At the end of the experiment the lousy hogs weighed 2,872 pounds and the clean hogs weighed 3,150 pounds, although the total feed consumed by the clean hogs weighed only 203 pounds more than that eaten by the animals with lice.

The Department of Agriculture will be glad to supply farmers with publications that tell how to free their hogs of lice. This is the Time to read this and then DO IT!

WHAT IS A POUND OF BUTTER WORTH

Persons eating real butter nowadays are paying for it. The prices charged in the various stores vary widely, but all are much higher than before the war. Who gets the large end of the profit? is often asked; and invariably the farmer is designated as the profiteer. The verdict is pronounced by the great consuming public and that verdict is based on incomplete information. All the evidence the jury usually has in hand is the greener's sales slip. The farmer, the producer, has not been heard.

In order better to present the case, the Farm Management Department of the University of Missouri College of Agriculture has prepared a brief for the farmer. This is not a statement of theoretical costs, but costs based on figures gathered from a large number of farmers in Missouri. It is an average gleaned from the accounts carefully kept, and while it may be high for some particular farms, it is low for others.

Butter produced in the winter months, November to April, inclusive, by the average farm herd, costs the farmer 73 cents a pound at present feed costs. The farmer is entitled to a small profit, which should be added to the cost to show what he receives. The rest of the price is tacked on as the pound of butter slides over the various avenues of trade to reach the consumer's table.

Does a 73 cent cost sound unreasonable? Perhaps. But the farmer has no dark secrets to hide. His books are open and here is what they show:

In those six months he produces 65 pounds of butter. He spent \$4.

Who Wants an Imitation?

WOULD you call on your local merchant and ask him for "imitation" sugar, or raisins, or coffee? Would you ask him to sell you a pair of shoes made of something "just as good" as leather? Or a suit of clothes "made for" a man, whether or not it fits you?

35 for 2.9 bushels of corn at \$1.50;
\$12 for a half ton of hay at \$24;
\$7.20 for 0.9 of a ton of silage at \$8;
\$6.30 for 9 bushels of oats at \$70c;
\$1.63 for fodder roughage;
\$5.75 for mill feeds, and \$1.27 for pasture and stalks. Add to that \$10.75 for 67 hours of man labor at 25c an hour (which is very low considering the unreasonably high prices paid unskilled labor); 60c for 4 hours of horse labor at 15c; \$5 for upkeep on building, taxes, and miscellaneous expenses; and \$3.00 for 24 hours of his wife's labor in the home at 15c an hour (which also is low as may be determined by hiring domestic labor); and you have a grand total of \$64.45 for the 65 pounds of butter produced.

Yet the farmer will be fair with you. He will deduct from this cost \$7.50 for the calf raised, and will subtract also \$9 for the three tons of manure produced. That makes the total cost \$47.95. Divide this by 65, the number of pounds of butter produced, and you will get so near to 73c a pound that you had just as well call it that.

The worst part of this story is that it cannot record in all instances that the farmer received even 73c. In most cases he gets less than that price and he must stand the loss.

If so read what the Missouri Farmers have figured as the cost of production of a pound of butter. The Farmers Home Journal ran this last week, I say it means Cream Stations:

FLORIDA CROPS DAMAGED

FIVE MILLION BY FROST
Miami, Fla., March 8.—Damage estimated at over \$5,000,000 was done to fruit and vegetables in South Florida by the extremely low temperatures of Tuesday night. Vegetable fields north of Miami were practically wiped out, while early reports show the damage to the South to be about 5 per cent. Temperatures last night were the lowest ever officially recorded here for March—34 degrees.

Evolution, Not Revolution, Only Hope for Mexico

By SAMUEL GUY BOWMAN
of the Interchurch World Movement

American mission boards are the only organizations which have developed a practical, comprehensive, inclusive program for solving the Mexican problem.

The Mexican problem is not a question of a revolution being quelled, but an evolution to be guided. Mission boards are planning to help Mexico solve her land problems by establishing agricultural schools; her social problems by setting up social centers in every town of over 15,000 population; her educational problems by establishing a university in Mexico City and enlarging and multiplying high schools, normal and day schools. A brotherly hand must be lent to aid the Mexican people in eliminating their 70 per cent of illiteracy.

The good roads bill will beyond a doubt become a law. Heres hoping it will really mean something. There is no other asset that a county or state can possess that is worth so much in every way as good roads. If the state and nation will build the main thoroughfares, then we can spend our county road funds on the shorter roads and soon have a splendid system.

In his examination of the records of the Ohio County officials recently the Inspector and Examiner found the books of the two Clerks in good condition. Circuit Clerk Porter holds a remarkable record in this respect. In the many examinations made since he became Clerk, the Inspectors have never found a dollar unreported. We doubt if there are many county officials in the state that can produce such a record.

A very serious fault with Ohio County's road system is the fact that we fail to keep a road up after building it. The same condition is true of many of our bridges. There are scores of small bridges in Ohio County that are extremely dangerous. These could be repaired with the expenditure of a few dollars and a little elbow grease properly applied. Who is at fault? Why are they left in this dangerous condition for months at a time?

The Ex Crown Prince of Germany has announced that he will write a book entitled "My part in the War." The Ed had the privilege of going through the chateau in which the said Prince lived during the siege of Verdun. This was out of range, but still he had a strongly walled dugout under the building and another still more strong connecting with it, to be used in extreme cases. We have also seen the concrete observation tower at Montfaucon, where he sat in his cellar and viewed the fighting through a periscope.

Those who waited upon him at the chateau said he spent most of his time taking lessons in painting and that when his generals consulted him, it was a mere formality as they did not follow his instructions. His will be some book. A better title would be "The World War as Seen from a Dugout."

POPULARITY CONTEST

In one of the most exciting baby contests seen here in recent years, little Annie Laura Rial, 19 months old baby of Mr. and Mrs. Alex Rial, won the prizes consisting of a diamond ring and a 5 piece set of silverware. These prizes offered by the show that played at the opera house here all last week. There were a number of entries but many withdrew as the contest progressed, leaving but few contestants when the final count was made last Saturday night. The three highest candidates stood as follows: The Rial baby, 600,700 votes; Mr. and Mrs. Will Burton's baby, 300,200; Mr. and Mrs. Howard Ellis's baby, 297,800.

A similar contest was waged to determine the question "Who is the most popular young lady." The diamond ring offered in this contest was won by Miss Mary Burton.

BARRED PLYMOUTH ROCKS BRED TO LAY AND WEIGH

With eighteen years experience and constant attention to size, shape, color and egg production. I feel warranted in claiming a standard Bared Plymouth Rock yard, and to improve my flock, I have just received one of Holterman's "Aristocrats" from his yard at Fort Wayne, Ind., for which I paid \$15.00. This bird is mated to 12 selected hens and will produce some wonderful results. Eggs from this mating, \$2.00 for 15 eggs.

I also have 40 hens and 4 cockerels of my own breeding, selected and mated to produce splendid results. Eggs from this mating, \$1.25 for 15 eggs. \$5.00 for 100 eggs. Orders will be filled in the order they are received and eggs shipped when desired.

Book your orders now and be ready for early hatching. 5-1t JOHN B. WILSON, Hartford, Ky.

THREE YEARS WITHOUT HOPE

A Story of Sickness and Suffering with Final Return to Health
It will do you good to read it

No matter how long nor how much you have suffered, do not give up hope. Do not decide there is no help for you. There is. Make up your mind to get well. You can. There is a remedy in which you may place full reliance as did Mrs. Rozalia Kania of 39 Silver Street, New Britain, Conn. This is what she says: "I had cramps for three years and thought I would never be any better. I could not eat without distress. Slept with my mouth open and could hardly breathe. No medicine helped me. I had catarrh of the stomach. Now I have no cramps and am feeling well and healthy. I wish every suffering person would take PE-RU-NA."

Catarrh effects the mucous membranes in any organ or part. PE-RU-NA, by regulating the digestion and aiding elimination, sends a rich, pure supply of blood and nourishment to the sick and inflamed membranes and health returns.

For coughs, colds, catarrh and catarrhal conditions generally, PE-RU-NA is recommended. If you are sick, do not wait and suffer. The sooner you begin using Dr. Hartman's well-known PE-RU-NA, the sooner you may expect to be well and strong and in full possession of your health. A bottle of PE-RU-NA is the finest emergency, ready-to-take remedy to have in the house. It is fourteen ounces of prevention and protection.

Sold everywhere in tablet or liquid form.

400 Ohio County Families Served By the Red Cross

Miss Ola Arick, field representative of the American Red Cross in Western Kentucky, visited the local chapter last week. She stated that she was much pleased by the amount of work and fine quality of the work done by the chapter here. The records of work kept by Miss Elizabeth Moore, the Secretary, show that many disabled soldiers have been given assistance in filing claims for compensation for disability received in the service. There are in the county about fifty disabled men and some of these have not received the compensation coming to them. Approximately \$30,000 has already come to the men and their families in Ohio County through the efforts of the Red Cross. Every month for several years to come at least \$2500 will be received by men of Ohio county or their families. Another fact of interest is that about \$3000 worth of undelivered Liberty Bonds were located

thing that is coming to him. by the Red Cross Secretary and delivered to the men.

During the past year over 400 men and families have been served by the Chapter. There are still many men coming to the office for assistance in filing various claims with the government.

Miss Arick stated that her experience with chapters over the Lake Division shows that the war job is not finished although the war is over. There are still many matters of business which need to be cleared up. All the men who suffered from wounds or illnesses which impaired their health in such a way that they cannot do so well the work they did before entering service are entitled to free training in schools and business houses. For this work it will be absolutely necessary to continue this Red Cross work for several months to make sure that every man in Ohio County who served his country gets every-

Get Thorough Cultivation Without Hard Work

When you use a cultivator you want thorough cultivation first of all. But you want to get this result in the shortest possible time and with the least possible labor.

We want you to see why using the John Deere KC Cultivator does away with the necessity for hard work, and at the same time gets the most thorough results.

Here are just a few of its features that will appeal to you.

Using it, you can meet every field condition without stopping to make adjustments. No wrench is necessary. Cultivation at even depth and distance of cultivation from the row are

accurately regulated by means of handy levers.

Because of its parallel shift rig, its shovels always face squarely to their work. They never track or trail in dodging on crooked rows. No uncultivated spots are left. You get thorough cultivation over all of the field.

The rig shifts quickly in response to slight pressure on the foot levers. Guiding the rig is as natural as walking.

We want you to get into the seat of this cultivator and see for yourself how handy and reliable it is. We've never seen its equal for time-saving, labor-saving, weed-destroying work in the field.

Don't fail to come in early and get acquainted with the "K C."

BIG SCRAP OVER NEGRO DELEGATE BY G. O. P.

Republicans Name Hert, Morrow
Mrs. South and Dr. George
As "Big Four."

Louisville, Ky., March 3.—The Kentucky Republican state convention today endorsed A. T. Hert, Gov. Morrow, Mrs. J. G. South, of Frankfort, Dr. S. H. George, negro, of Paducah, as four delegates from the state-at-large to the Republican National convention in Chicago.

The convention voted that they be unopposed.

The alternates are H. Green Garrett, Winchester, for Gov. Morrow, Dr. Ben L. Bruner, of Louisville, for A. T. Hert, Mrs. John W. Langley, of Pikeville, for Mrs. South, and Dr. George F. David, negro, of Lexington, for Dr. George.

Gov. Morrow, Mr. Hert, national committeeman from Kentucky, and Mrs. South, a daughter of the late Senator W. O. Bradley, were endorsed unanimously, and each one responded with a speech.

Negroes Have Hot Contest
A contest, however, raged for three hours among the negroes as to who should be the negro delegate from the state-at-large. Four nominations were made, and after much excitement, the usual method of nomination by acclamation was abandoned, and a vote by counties taken.

Dr. S. H. George, of Paducah, won the contest over the veteran Louisville negro politician, Roscoe Conklin Simmons. Dr. George F. David, of Lexington, and Prof. George W. Saffell, of Shelbyville, withdrew their nominations during the voting. After the figures were announced in favor of George, his nomination was made unanimous by acclamation. Such hooting and shouting came from the audience of more than 2,450 persons that the chairman almost continually rapped the table for order.

Resolutions Adopted
Many resolutions were adopted. One commended the "courageous stand" of the Republicans in the United States senate in requiring the Treaty of Versailles to be "Americanized," through reservations. The Republican state administration, headed by Gov. Morrow and the work of National Committeeman A. T. Hert came in for much praise both by resolution and through the speakers.

Will H. Hays, chairman of the Republican National committee, delivered an address, reciting the aims of the Republican party in which he included a reduction of taxes, election of honest and efficient business men as president, make party instrumentalities to apply to new and changing conditions, support law and order in the nation and put down radicalism. Loud applause greeted Mr. Hays' denunciation of the Democratic National administration.

Accuses Democrats of Wastefulness
In opening the convention Chairman Franks, who will be succeeded as chairman of the State Central committee by Chesley H. Searcy, delivered an address in which he accused the Democratic National administration of wastefulness, extravagance and many other crimes in the political calendar. He charged that war contracts were graft and cited many alleged instances. He declared that what reforms the Democratic administration had accomplished were in effect borrowed from the Republicans.

The president, he said, had been elected because of a split in the Republican party the first time, and on a "false issue—"He kept us out of the war"—the second time. He referred to the lack of tariff and said that despite what the Democrats called "an extra tax on goods," they were no cheaper than before.

Mr. Franks made the statement that billions of dollars of "pauper-made European goods" were pouring in on us, and made a bid for anti-British support by charging that England could get anything it wanted from this administration "from tolls on coastwise ships going through the Panama Canal to a vote of six to one in the League of Nations."

FARMER GETS TWO YEARS FOR SLAYING

Hopkinsville, Ky., March 2.—A verdict of guilty and sentence of two years in the penitentiary was returned today against John Russell, farmer, for killing Fletcher Cowan last July. The case was of interest to many people and large crowds attended the trial.

WIDE AWAKE AND ACTIVE IS CLAIM OF LETTER MAN

Says He Performs Duties With Renewed Vim Because Of Trutona

Bowling Green, Ky., March 10.—"I'm wide awake and active and really feel like working; seems as though I'm able to perform my duties with a new vim since taking Trutona," C. W. Howerton, a well known letter carrier here who lives at 106 Fourteenth Street, said a few days ago.

"I hadn't been feeling well and I was afraid to 'lag' along as 'flu' time was drawing near," Mr. Howerton continued. "My digestion was poor and although I slept well, my sleep didn't seem to be restful as I usually felt lifeless, tired and draggy. My liver and kidneys felt drowsy and sleepy most all day."

"After several of my neighbors had spoken to me about Trutona I finally decided to try the medicine. As I just said I can perform my duties with a new vim since taking Trutona. I'm wide awake and active and feel more like working, it seems. Trutona gave me quicker relief than any other tonic I have ever taken and because of the quick thorough benefits I have gained through it I am glad to recommend this medicine."

Trutona is now being introduced and explained in Hartford at the Ohio Co. Drug Company, Trutona is sold in Beaver Dam, at the Beaver Dam Drug Co. (Advertisement.)

Dover.—The local pearl-button works, which was made a present to a New Jersey corporation by its founders, who found it beyond resources, has doubled its capacity within four years, and in addition to muscle shells from the Ohio, is importing shells from the Orient.

Georgetown.—After parceling his estate among wife and children, Robert S. Sprake provided in his will that an ancient brass clock, which had chimed in his bedroom for eighty years, should remain on that wall as long as the homestead was in the possession of his descendants.

London.—Upon testimony that the game was strictly "sociable," W. H. Steele, C. C. Poynter, J. B. Boring and Joe Baldwin, prominent citizens who were seen playing cards in Attorney R. C. Lewis' office, were dismissed.

Richmond.—Judge R. W. Shackelford signed his first recommendation for a pardon in his judicial career when clemency was asked and granted Coy Hutton, sentenced in May to five years for a cold-check transaction, when the maximum should have been two years.

MARY PICKFORD DIVORCED FROM OWEN MOORE ON GROUNDS OF DESERTION

Los Angeles, Calif., March 5.—Mary Pickford, who was granted a divorce from Owen Moore at Minden, Nevada, on grounds of desertion, was reported "out of town" at the moving picture studios here. Miss Pickford and Mr. Moore separated several years ago. Miss Pickford lives on a California ranch outside of telephone communication and could not be communicated with about her marital troubles. It is not thought that Mary asked for any alimony. She has been associated with Douglas Fairbanks and Charlie Chaplin for the past year. Fairbanks was divorced a year ago.

Restful Results For Men

Only a person who has experienced that awful "all night" cough that sometimes follows influenza can appreciate what a good night's sleep can be. Mrs. Annie Davison, 2080 Myrtle St., Long Beach, Cal., writes: "The result of using Foley's Honey and Tar was a restful one for me." Foley's Honey and Tar checks harsh, racking coughs; eases wheezy breathing; stops tickling in throat; covers raw, irritated surfaces with a soothing, healing coating. Sold everywhere. Kentucky Mothers

Paducah, Ky.—"I wish to state some facts about Dr. Pierce's excellent medicine, 'Favorite Prescription.' I used it during expectancy and found it the best remedy I could get. I always feel strong and my back never gives me any trouble at all. I have used it at other times and it acts like a charm. It takes away all sores and pains and promotes regularity."

"I hope others will try it for it is a blessing to women."—MRS. M. GRIFFIN, 1241 Trimble St.

A Kentucky Woman Who Suffered

Paducah, Ky.—"After first becoming a mother, I was in miserable health. I developed a severe case of feminine trouble, and suffered with backaches and pains in my side. I felt so bad that I was a complete nervous and physical wreck, and had given up hopes of getting better when I began taking Dr. Pierce's Favorite Prescription. I soon started to improve and was convinced that I had found the right medicine for my trouble. I kept on taking the 'Prescription' and my health was completely restored."—MRS. ANNIE SMITH, 1119 N. 12th St.

Dr. Pierce of Buffalo, N. Y., long since found out what is naturally best for women's diseases. He learned it all through treating thousands of cases. The result of his studies was a medicine called Dr. Pierce's Favorite Prescription. This medicine is made of vegetable growths that nature surely intended for backache, headache, weakening drains, pains, irregularities, and for the many disorders common to women in all ages of life. In liquid or tablets, send Dr. Pierce's Invalids' Hotel, Buffalo, N. Y., 10c for large trial package tablets.

Feet Drag?

When it is an effort to drag one foot after the other, when you are always tired and seem lacking in strength and endurance, when aches and pains rack the body, it is well to look for symptoms of kidney trouble.

Foley Kidney Pills

banish effects of kidney and bladder trouble by removing the cause. They are healing and curative. They tone up and strengthen the weakened or diseased organs. They relieve backache, rheumatic pains, stiff joints, sore muscles.

W. W. Wells, Tonquin, Mich., writes: "I got great relief from taking Foley Kidney Pills. I was so my feet most of the time and got tired out. After taking Foley Kidney Pills, they make me feel like a new man. I recommend them to my customers and never have heard of any case where they did not give satisfaction."

G. R. Ogden, of Shinnston, W. Va., says: "I have used AVALON FARMS HOG-TONE 56 days and I think it is the best medicine I ever used. I have two pigs 4 months and 3 days old that weigh 360 pounds, one 6 pounds heavier than the other. They are 100 pounds heavier than my neighbor's 2 of the same litter and feed."

This is the experience of a typical user of Hog-Tone. There are hundreds and hundreds of letters on file at the Avalon Farms Company's office from nearly every state in the Union, all telling of big improvement in hogs and in hog profits through the use of Hog-Tone, the scientifically prepared Hog Conditioner, Fattener and Worm Remover. Hog-Tone is sold on

60 days' Free Trial under an absolute money-back guarantee. Come in the store and tell us how many hogs you have in your herd and we will give you enough Hog-Tone to treat all of them 60 days. You don't have to pay for it unless you are absolutely satisfied. The decision is left entirely to you.

MRS. BETTIE WHITTAKER DEAD

Mrs. Bettie Whittaker, wife of Mr. S. L. Whittaker, died at her home near Heflin, last Friday morning after a few weeks illness of hemorrhage of the lungs. She was formerly Miss Bettie Shaver, daughter of Mr. Felix Shaver, deceased, and was 50 years and three months old at the time of her death.

She professed faith in Christ when a girl and united with the M. E. church at Shinkle Chapel, living a faithful Christian until death. In 1901, she was united in marriage to S. L. Whittaker, who survives. To this union were born two sons, Carol and Charley. Mrs. Whittaker also leaves a brother, Mr. L. B. Shaver, of Heflin, and a sister, Miss Mary Shaver, of Livermore as well as a host of other relatives and friends.

The funeral was conducted by Rev. Landrum at Woodward's Valley church, Saturday morning after which her remains were interred in the cemetery nearby.

MINISTER AND UNDERTAKER

(Published by Request)

An Ohio County Undertaker and an Ohio County Minister recently compared notes on eight funerals and burials at which the two officiated. The result showed the net receipts, excluding the original cost of caskets etc., of the Undertaker to be \$295 while to the minister, who has likewise made every effort to do his bit by giving aid and comfort to the bereaved families and friends, and by directing those present at the funerals, toward the straight and narrow path, not mentioning the enumerating of the many good virtues of the deceased ones etc., the grand total sum of \$12.00 was given.

In many instances the Minister had to travel considerable distances by rail, while in others he had to hire a horse and buggy, or automobile in order to get to the place where the funerals were to be held. Ofttimes he must be away from home several days.

The objection raised is not that the Undertaker charges too much but that the Minister should not be so sadly neglected.

PREACHING

Rev. E. Watt Smith will preach at Mt. Herman, next Sunday at 11 a. m. Everyone cordially invited.

OBITUARY

Softly, like the falling of a feecy snowflake, or the wafting to earth of a downy feather, came the Angel of the Lord to earth shortly after midnight on February 21 and carried back to the Realms of Glory the soul of one of God's chosen.

Ronda Sandefur, second son of Mr. and Mrs. F. L. Sandefur, was born at Beaver Dam, Kentucky, October 13, 1900, and departed from this world for the Great Beyond, Feb. 21, 1920, being 19 years, 4 months and 8 days old. Yet in that short life he had accomplished more than most men do who live the allotted "three score years and ten."

He spent the early years of his life with his family and was considered by those who knew him to be a model boy, growing up into young manhood the most highly respected young man in the community. He was self-sacrificing, always thinking of others and doing good wherever opportunity afforded itself.

Near the first of this year he came to Newcastle with some friends to seek employment. He went to work at the Indiana Rolling Mill, where he was employed until his death.

No other young man ever came to the city who made more friends or accomplished more good in such a short time. He made friends and his cheerful, sunny disposition won a place in every heart. As one of his friends made the remark while looking at the body, "Truly to know him was to love him."

He immediately on coming to this city enrolled in the Young Men's Bible class of the Baptist church and was always present, not only at Sunday school but all church services. He was an earnest, upright Christian character, not afraid to let the world know that he had explicit faith in God.

During the month of January he enrolled as student in the Newcastle Business College, where he soon became one of the most popular students in school. He was a hard worker and made rapid advancement. Both the faculty and student body of the school feel his loss very keenly.

On February 11 he went to the Clinic for treatment and was found to be suffering from encephalitis, or "sleeping sickness." His parents were notified at once and came, and all that could be done was done but to no avail. His work here was completed; he was in line for promotion and God called him on.

On Saturday afternoon at 1 o'clock a number of the members of the Baptist church, several students of the Business College, and friends gathered around the casket in the Fox Undertaking Parlor and had a quiet but impressive service, conducted by Rev. J. M. Stewart, who made a very impressive short talk and read the fourteenth chapter of John, after which prayers were offered by Rev. Stewart, A. P. Zetterberg, W. E. Waggoner and J. W. Cox.

The body was shipped to Beaver Dam, Ky., for burial.—J. W. Cox.

FAMILY EXTENDS THANKS

The body of Ronda Sandefur was interred at Cool Springs, Ky., on the afternoon of Feb. 23. Funeral services were conducted by Rev. Ward Taylor, of Rosine, who delivered an able and sympathetic sermon. Mr. Horace Taylor, of Beaver Dam, led the choir service and gave a beautiful talk to the young people present. A large congregation of sorrowing friends and relatives attended the funeral.

The entire family, composed of F. L. Sandefur and Jennie B. Sandefur, father and mother; Owen C. and Hugh L., brothers and Dorothy Nell, sister, extend their thanks to the people of Newcastle, Ind., for their many acts and words of kindness, and especially to Rodney and Roy Fulton, to the boys of his boarding house, to the Young Men's Bible Class, to the teachers and students of the Business College, where he attended school, to the Baptist Sunday School, to J. W. Cox and family, to A. P. Jetterberg for their beautiful floral offering and to the many home people who have been so kind and helpful to us and for the numerous letters of sympathy and condolence that we have received.

OPIE READ.

Opie Read, who is to appear here this season, is one of America's greatest authors as well as lecturer. His power to entertain and instruct an audience is marvelous, and his use of beautiful English is equally notable. His American stories have made for themselves a secure place in the affections of the American people. It has been said that he received the highest prices for his writing of any author in America.

Opie Read is an original thinker. He is also a fine story-teller and tells only his own stories. He tells them as none other can and has delighted thousands.

OPIE READ.

A program by Mr. Read must necessarily abound in entertainment. He is also a philosopher and wit.

His recital of the adventures of Lin Jacklin is the keenest arraignment of modern fraud and abuse extant. It is a strong and manly contribution to the work of social and political reform.

He has an interesting and powerful personality. He is tall and commanding. Resolution and courage are prominently announced in his look, and he has deep convictions.

Opie Read is a master painter of the things that stir men's souls. His recitals are keen and penetrating. He takes his audiences with him. They shed honest tears at his tender passages and laugh boisterously at his flashes of humor.

BOARD OF SUPERVISORS

NOW HOLDING SESSION

The Ohio County Board of Supervisors began their sittings at the court house, Monday and will remain in session for perhaps a week or more for the purpose of adjusting the land raises made by the County Tax Commissioner, D. E. Ward.

At another session to be held sometime next month, the Board will send out notices of the proposed raises made by them. Thus land owners may be required to make two trips to Hartford in order to get their land values adjusted.
